Sub-section:	Infectious Disease Transmission						

Infectious Disease Transmission Prevention

All employees will use and model the following precautions:

- a. Use of disposable gloves (latex, vinyl) when handling bodily fluids or materials contaminated with bodily fluids.
- b. Appropriate disposal of material contaminated by bodily fluids.
- c. Use of acceptable solutions for disinfecting contaminated materials, (e.g. 1492 or 10 parts warm water to 1 part bleach).
- d. In environments that ASC owns or controls, toothbrushes, needles, razors or piercing jewelry will not be shared. All personal hygiene supplies will be stored in marked individual containers/places.
